| Nurser y | Sing number songs and familiarise children with number area. <br> Develop fast recognition of up to 3 objects, without having to count them individually ('subitising'). <br> Recite numbers past 5 . <br> Say one number for each item in order: 1,2,3,4,5. <br> Provide opportunities for children to explore and match objects which are the same - Can you find one like mine? How do you know it's the same? Can you find one different from mine? Why is this one not like mine? <br> Provide opportunities to sort sets based on colour, size, shape. <br> Compare amounts - more, less, the same. Begin to compare objects in order of size - big, little, small, large, tall. short, long. <br> Talk about and identify the patterns around them. For example: stripes on clothes, designs on rugs and wallpaper. Use informal language like 'pointy', 'spotty', 'blobs', etc. | Know that the last number reached when counting a small set of objects tells you how many there are in total ('cardinal principle'). <br> Show 'finger numbers' up to 5 . <br> Link numerals and amounts: for example, showing the right number of objects to match the numeral, up to 5 . Experiment with their own symbols and marks as well as numerals. <br> Make comparisons between objects relating to size, length, weight and capacity. <br> Extend and create ABAB patterns - stick, leaf, stick, leaf. Notice and correct an error in a repeating pattern. <br> Talk about and explore 2D and 3D shapes (for example, circles, rectangles, triangles and cuboids) using informal and mathematical language: 'sides', 'corners'; 'straight', 'flat', 'round'. | Solve real world mathematical problems with numbers up to 5 . <br> Compare quantities using language: 'more than', 'fewer than'. <br> Understand position through words alone - for example, "The bag is under the table," - with no pointing. Describe a familiar route. <br> Discuss routes and locations, using words like 'in front of' and 'behind'. <br> Select shapes appropriately: flat surfaces for building, a triangular prism for a roof, etc. Combine shapes to make new ones - an arch, a bigger triangle, etc. <br> Begin to describe a sequence of events, real or fictional, using words such as 'first', 'then...' |
| Recepti on | Number: <br> Numbers 1-5 <br> Beginning to subitise 1-5 <br> Counting to 10 <br> Number recognition and formation 1-10 <br> Number matching numeral to quantity 1-5 (10 where appropriate) <br> Numerical Patterns: <br> Introduce vocabulary related to weight and length Counting stories, rhymes,songs and nursery rhymes Introducing and exploring patterns and recurring patterns Select, rotate and manipulate Shapes in order to develop spatial reasoning skills Introduce sequencing and describing events. | Number: <br> One more than and adding one more <br> Introducing 0 <br> Adding two groups/quantities <br> Sharing quantities <br> Subitise 1-5 (10 where appropriate) <br> One less than and taking away/ one less <br> Making pairs and counting in two's <br> Number sentences - addition and subtraction <br> Number Lines - one more than, one less than <br> Numerical Patterns: <br> Comparing length, weight and capacity <br> Shape recognition and descriptions <br> Exploring patterns <br> Describe events using time-specific language such as first, next, last. <br> Begin to use objects and tools to measure and describe length, weight and capacity. | Number: <br> Verbally counting to 20 <br> Subitise 1-5 (10 where appropriate) <br> One less than and one more than <br> Taking away/ one less <br> Number sentences - addition and subtraction <br> Number Lines - one more than, one less than <br> Doubles and pairs <br> Number bonds to 5 and where applicable to 10 <br> Numerical Patterns: <br> Verbally counting beyond 20 <br> Comparing quantities to 10 <br> Odds and evens <br> Evens and Odds <br> Shapes <br> Positional Language <br> Creating patterns |
